Office Action Summary	Application No. 10/802,215	Applicant(s) GOLDSTEIN ET AL.	
	Examiner Blair M. Johnson	Art Unit 3634	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Claim Rejections - 35 USC § 112

Claims 22 and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

It appears that the dependency of claims 22 and 23 is incorrect. It is not clear from which claim these claims are intended to depend.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Maas.

See panels 11, carrier panels 11a, 11b, spread end foot 12a, wheels 19, duplex mount 20, and U-shaped pull handle 15, 16, which is aligned with the carrier panel.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Maas.

It would have been obvious to provide more wheels for carrier panels so as to improve stability.

Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Maas in view of Moore et al.

Providing a plurality of wheeled supports for each panel of a plurality of connected panels is well known as illustrated by Moore et al, Fig. 7. It would have been obvious to provide Maas with such a plurality of wheels so as to improve stability.

Claims 4-6,10 and 16-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Maas in view of Aysta.

The structure of the panels and hinges of Maas are not specifically known. However, Aysta discloses panels and hinges as recited. It would have been obvious to provide such panels and hinges for Maas so as to provide a continuous hinge which increases coverage of the panels.

Claims 7-9,11 and 12 are rejected under 35 U.S.C. 103(a) as being unpatentable over Maas in view of Downing.

Providing a bridging element for foldable partitions is well known as illustrated by Downing at 19. It would have been obvious to provide Maas with such a bridging element so as to maintain his partition in an extended state.

Claims 13-15 and 19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Maas in view of Downing and Aysta.

Aysta and Downing are applied as above.

Allowable Subject Matter

Claims 20,21 and 24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 22 and 23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
